

# Dual fuel heat pumps

## WYOMING PROGRAM OVERVIEW

Dual fuel technology combines the efficient heating and cooling performance that you get from a heat pump with the consistent heating capacity of a gas furnace. In summer, the heat pump works like a high-efficiency central air conditioner. In spring, fall and winter it provides efficient heating, while the gas furnace takes over only when needed during the coldest months of the year.

### REBATE INFORMATION

With Rocky Mountain Power, we make it simple to save on a high-efficiency heat pump and furnace combination.

### BENEFITS

Energy  
Efficient

Quiet  
Operation

Adaptable  
& Versatile

Environmentally  
Safe

### DUAL FUEL HEAT PUMP PROGRAM REQUIREMENTS

- For dual fuel heat pump minimum qualifications, see table on page 2.
- Work must be performed by a Program-eligible HVAC trade ally.
- Dual fuel heat pump must be installed according to the specifications outlined in the Wyoming Technical Specifications Manual.
- Heat pump must have a AHRI\* number listed on the AHRI Certified Directory. See table on page 2 for non-AHRI qualifying systems that are eligible for a de-rated rebate.
- Previous primary heat source must have been a ducted natural gas furnace with CAC that served at least 80% of the home's conditioned living space.
- Dual fuel heat pump must be a new, air-source split or packaged unitary heat pump with an AHRI Standard Rating Cooling Capacity of 65,000 BTU/hr (5.4 tons) or less.
- Homes 3,500 square feet or less may qualify for one unit, while homes greater than 3,500 square feet may qualify for two units. Homes greater than 3,500 square feet requiring more than two units may apply for additional rebates (additional documentation required, contact program for more information).

\*AHRI - Air Conditioning, Heating, and Refrigeration Institute

EQUIPMENT PURCHASES & SERVICES	CUSTOMER REBATE
<b>Dual fuel heat pump - AHRI rated</b> (8.5 HSPF2, 15.2 SEER2) > with minimum 80 AFUE furnace	\$2,000
<b>Dual fuel heat pump - AHRI rated</b> (7.5 HSPF2, 14.3 SEER2) > with minimum 90 AFUE furnace	\$2,000
<b>Dual fuel heat pump - non-AHRI rated</b> Minimum 80 AFUE furnace with a heat pump	\$1,000

\$50 trade ally rebate on dual fuel heat pumps

## ADDITIONAL PROGRAM RULES

- Submit all documents within 90 days of the qualifying service completion.

## QUALIFICATIONS

- Existing homes only, not for New Construction.\*
- Manufactured homes do not qualify.

\*For New Homes rebates and qualifications please refer to the [Wattsmarthomes](http://Wattsmarthomes.com) website or contact us at [WattsmartNewHomes@RockyMountainPower.net](mailto:WattsmartNewHomes@RockyMountainPower.net)

## REQUIRED REBATE APPLICATION DOCUMENTS

- DFHP Application  
(Use the [Rebate Portal](#) to access the Application.)
- Invoice
- AHRI Number

## HOW TO APPLY

### STEP ONE: FIND A CONTRACTOR

Prior to starting a project, find a program-eligible HVAC contractor, and review the rebate qualifications together.

### STEP TWO: APPLY ONLINE

Apply online with required documents within 90 days of project completion.

### STEP THREE: STATUS

Receive your check. Rebate checks are issued within 14 business days after we review and approve your rebate application.

## CUSTOMER ELIGIBILITY

Residential electric customers residing in the state of Wyoming who purchase their electricity from Rocky Mountain Power on rate schedules 2 or 18 qualify. Landlords who own rental properties served by the company in the state of Wyoming where the tenant is billed on rate schedules 2 or 18 also qualify for this program.

Customers can locate their rate schedule on their bill or by calling **1-888-221-7070**. Rebate checks are only issued in the name of the Rocky Mountain Power account holder. Visit [Wattsmarthomes.com](http://Wattsmarthomes.com)
